la adolescencia llena de experiencias emocionantes y memorables para la mayoría de las personas incluye las primeras relaciones románticas que desde ya pueden presentar situaciones de maltrato y violencia por parte de la pareja las relaciones afectivas que se presentan en esta etapa marcan la pauta para las relaciones posteriores y en ese proceso es fundamental el modelo que tuvo el adolescente en su familia y las experiencias e influencia de sus pares estudios que revelan elevadas cifras de violencia en el noviazgo indican la necesidad de contar con estrategias de evaluación prevención e intervención en las relaciones en donde se presentan malos tratos en violencia en el noviazgo evaluación prevención e intervención en los malos tratos en parejas jóvenes se realiza una conceptualización de los malos tratos en el noviazgo se revisan y analizan diferentes estrategias y técnicas de evaluación del maltrato en parejas jóvenes se analizan varios programas de prevención de los malos tratos en el noviazgo y se presenta el programa para el mejoramiento de las relaciones de noviazgo querámonos bien desarrollado por parte de los autores de este libro en el marco de un proyecto de investigación institucional a cargo del grupo de investigación en psicología clínica y de la salud gipcs de la universidad pedagógica y tecnológica de colombia violencia en el noviazgo evaluación prevención e intervención en los malos tratos en parejas jóvenes se convertirá en elemento de consulta indispensable para estudiantes académicos y profesionales interesados en el tema

adolescence represents a critical period characterized by significant biological psychological and social transformations that profoundly influence an individuals future this pivotal stage not only offers a prime opportunity to establish healthy lifestyle habits but also exposes

young individuals to the potential acquisition of risky behaviors such as substance abuse with far reaching consequences for their future wellbeing because during this stage their brain is still developing adolescents are known for their impulsive decision making tendencies which become a notable risk factor within specific contexts understanding the complex interplay between these risk contexts and the behaviors exhibited during this phase is vital to comprehensively addressing adolescent health

sexual assault sex trafficking and child abuse affect millions of women and girls globally each year this two volume set covers a broad scope of topics from violence against girls before birth in childhood and throughout women s adult lives millions of women around the world some data suggests as many as three in every four women face violence against them throughout their lifetimes the incidences range from the earliest stages of life with infanticide to child trafficking sexual assault and domestic violence to the end of life by elder abuse this two volume set provides a comprehensively broad treatment of the global problem of violence against women addressing less commonly discussed subjects such as domestic violence in lesbian couples abuse within the context of war crimes and the incidence of violence and abuse against women internationally as compared to within the united states

child and adolescent online risk exposure an ecological perspective focuses on online risks and outcomes for children and adolescents using an ecological perspective i e the intersection of individuals in relevant contexts for a better understanding of risks associated with the youth online experience the book examines the specific consequences of online risks for youth and demonstrates how to develop effective and sensitive interventions and policies sections discuss why online risks are important individual and contextual factors different types of risk online risks among special populations such as lgbt youth physically or intellectually disabled youth and ethnic and religious minorities and intervention efforts examines online risks such as problematic internet use contact risk behaviors online

exploitation online hate cyberbullying and cyberstalking explores the concept of digital citizenship includes theoretical considerations and the prevalence of online risks covers policy and intervention recommendations for reducing online risks

the study of addiction draws primarily on methods and approaches to understanding treating and supporting addiction drawn from traditional approaches the foundations of which focus on responses seen across groups but often neglecting to account for the role the individual differences plays in understanding and treating addiction it is clear from the literature that there is often a lack of consensus in both understanding and treating those struggling with addiction individual differences therefore whilst not always conforming to the accepted model for developing theoretical interpretations and practice in the field are key to successful outcomes in treating addiction
